(Optional)

Pole with mountings for The Rescue Post

Materials

The Pole with mountings for The Rescue Post is made of a 3m aluminium tube (Ø 6 cm) with a UV-resistant black powder coating with a 3M yellow reflex at the top. A Lifebuoy mount (stainless steel) is attached with black composite mountings and Stainless metal bolts. The Post Base is made of Stainless steel with four holes for attaching to the ground with bolts/screws (bolts/screws are not included). Mounts for The Rescue Hook and The Rescue Ladder are included and attached to the Pole with black composite mountings and Stainless steel bolts.

Weight and dimensions

Pole: Ø 6 x 300 cm, 3,5 kg

Rescue Ladder Mount: 34 x 15 x 7 cm, 1 kg

Rescue Hook Mount: 17 x 12 x 5 cm, 0,3 kg

Lifebuoy Holder: 52 x 57 x 17 cm, 0,9 kg

Post Base: 15 x 20 x 20 cm, 1,6 kg

Total Weight: 7,3 kg

Lifespan and Maintenance

The lifespan of The Pole with mountings for The Rescue Post depends on where it is placed and how exposed it is to the elements. To increase lifespan, we recommend reviewing The Pole with mountings for The Rescue Post every year. If necessary, it can be washed off with water and mild detergent. When The Pole with mountings for The Rescue Post is consumed, metal parts shall be sorted as Metal waste for Recycling, composite parts should be sorted as combustible waste for energy extraction.

Pole with mountings for The Rescue Post® Product Specifications Version 1.00.
